Description

Inspired by the rocky landscape of Mykonos, Villa Oliver was designed with the characteristics found on the islands' vernacular country homes, chapels and windmills. The Cycladic traditional architecture of materials and forms affected the entire single storey building, simplifying its layout and form of spaces.

The outdoor areas are protected from the northern winds while wooden pergolas with canvas canopies provide the necessary shading so you can enjoy the island's lifestyle any time of the day. The landscape gardens complete the scenery and create a unique atmosphere. The interior design around the local materials and stones is enhanced by the choice of fabrics and materials, while the large French windows allow uninterrupted views of the pool area and the sea.

Villa Oliver, is a unique luxury villa, voted among the top 100 in the world and invites its guest to relax and indulge all their senses.
